PROFILE

I am actively seeking my first professional work experience. I consider myself a responsible, organized, and dedicated individual with a strong willingness to learn and grow. I'm eager to contribute positively to a team and take on meaningful challenges that help build both my skills and career.

PROJECT HANDLING

MEDICINE TRACKING SYSTEM

To develop a smart medicine supply management system enhancing efficiency in healthcare facilities.To develop a web-based system with a responsive UI usingHTML, CSS, JavaScript, and Bootstrap for seamless interaction.To implement a robust backend using Django framework for handling user requests, managing inventory, and ensuring secure authentication.

DESIGN A WEBSITE FOR INDIA DIASPORA TO SELL AND BUY INDIAN HANDICRAFTS PRODUCTS

we are developing a comprehensive website that connects the Indian diaspora with local artisan and seller in India. This platform will facilitate the purchase of high quality, culturally significant products directly from artisans with personalized recommendation and affordable import / export to worldwide.
